EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1 line 10, "said brake discs friction elements" is changed to --said brake discs braking surfaces,--.

The following is an examiner's statement of reasons for allowance: None of the references cited either alone or in combination provide a pair of circumferentially extending brake discs supported on a hub; a plurality of non-rotatable brake pads having spaced ends in the circumferential direction of the brake disc braking surfaces; a primary electric actuator mounted on the non-rotatable support structure adjacent at least one of the brake pads; and a secondary electric actuator coupled operatively to the piston and operative when actuated to move the piston to an actuated position independent of the actuator of the primary electric actuator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
